

# What is Sage Cover

**Sage Cover** is our umbrella brand for comprehensive software service and assurance.

With Sage Cover, you do not need to worry about keeping up to date with the latest version because it will be made available to you automatically. Each new version includes features that help your team maximize their productivity and performance. And best of all, it cost significantly less on an annual basis than sporadically purchasing new software licenses.

## Special benefits for Sage Cover members

## Save Time

You need not manually watch out for new software versions. We, Sage and your Business Partner, will notify you on software updates and will make new versions readily available to you as soon as they are released.

# BENEFITS OF SAGE COVER

## Maximize productivity

Your software will be insured and protected at all times to ensure its efficiency. Thus increase the productivity of your operation.

## Protect Against Price Increase

When SRP prices increase, you are already covered with Sage Cover. One year and discounted multiyear subscription terms allow you to choose the degree of price protection that is right for your business – and help simplify your budgeting.

## Save Money

Just a small percentage of your module SRP compared to buying new licenses of new version at full price. Why pay more for new version when you can have it with Sage Cover for less?

## Protect your investment

Because you are always running the most up-to-date software, you do not need to worry that your business-critical software may become obsolete.
